

SHIRE OF MOUNT MAGNET

PUBLIC NOTICE – PN002

The community is advised that the Shire of Mount Magnet will remove the large tree on Hepburn Street for safety reasons. The location of the tree is on the vacant Council owned land immediately to the north side of the Mount Magnet Hardware shop against the fence. The tree poses significant safety issues with the root system uplifting the pavement that is a hazard to pedestrians using the footpath. Council has consulted with the immediate land owner being the Hardware shop in the process. Council will also prune the large tree on the southern side of the Hardware shop in conjunction with the owner of that land which also intends to remove the safety issues that this tree poses to pedestrian traffic.

The tree removal work will be undertaken in the week beginning 13th of August 2018 and Council apologises for any inconvenience this work may cause to pedestrian traffic.

KJ Matthews
